No. 19

Designer Cameron Paterson
Contact 0408 886 183
Melway Ref 45K8
Location 91 Campbell Rd.
Balwyn

Offering a surprise at every turn with topiary hedges, flowering plants, dappled shade trees, raised steel edible garden, patio and swimming pool, this garden truly is a Wonderland. The beauty is in its seasonal changes; every month of the year different plants take stage and new texture and colour, flower and foliage are there to be discovered. One very special feature of this garden is the raised steel vegetable garden which we custom designed and installed. It provides an abundance of fresh produce all year round, as well as adding a stunning sculptural element to this magical garden.

No. 20

Designer Sandra McMahon
Contact 9725 3286
Melway Ref 51E4
Location 73 Pascoe Av.
Kilsyth

This informal 'garden of rooms' is the private garden of the designer. It flows beautifully around the 'Arts and Crafts Revival' home.

Sandra designs with an emphasis on plant material for structure and this garden showcases a very broad range of plants. The Australian plant garden at the front leads to a Japanese-inspired stroll garden, incorporating dry pebble stream and flowing water. An enormous elm is under planted with a range of woodland plants coping well in dry shade. Other features of the garden include a luscious rose garden, perennial and grasses border, vegetable garden and informal Mediterranean fruit tree grove.
